COPY NO. 51

CO-ORDINATING COMMITTEE

Export of a Computer to Poland

Memorandum by the United Kingdom Delegation

The United Kingdom authorities have been asked to approve the export to Poland of the following:-

	<u>Value</u>	<u>Item</u>
Analogue Computer Model TY 864	£4620	1565

2. This computer, which was exhibited at the Poznan Fair, is required by the Nuclear Research Institute, Warsaw. It is a very simple instrument, normally used at technical colleges for solving comparatively easy mathematical calculations and it has a very limited performance. Since the ending of the Fair, the British Embassy in Warsaw have maintained control of it, pending the result of this submission.

3. Her Majesty's Government wish to authorise the sale of this computer to the Institute under the special Polish exceptions procedure and the usual assurances against re-export will be obtained. In view of the impending recess Her Majesty's Government would be grateful for the views of Member Governments by July 27.
